CALIBRE OF ONE CONGRESSMAN

Representative McCall's letter, declining the presidency of Dartmouth college, is in keeping with his character as a public man, says the New York World. To most of the reckless innovations fathered by his own party during the past ten years he has been utterly opposed from principle. Year after year he has combated them with all his powers and been beaten. Often be has had to fight al most single handed for his convictions when so called leaders of both the republican majority and the democratic minority of the house had been cowed to timid subservience by agitators appealing to class prejudice and popular passion.

To seek escape from the turmoil of political life, promising only unpopularity and defeat, in the honor and dignity of a permanent position like the presidency of Dartmouth college would have been a severe temptation to a man of weaker faith than Samuel W. McCall. But he had enlisted for the war.

"I may be accomplishing little of value." he savs in his letter. "but I happen to be on the battle line, and I should indeed be a sorry soldier nicely to weigh causes and to decide at this moment to step out of the

After all, it is not so much Representative McCall's opinions as his personal character that makes his determination to remain in congress a matter of general moment. His views as to politics of party and government. at times may appear sound or unsound, but no one doubts that he acts on them from conscience and reason. His great crime has been that he has not chosen to disguise himself in the livery of others, however mighty, and out of respect for himself and his constituents he has had the courage to act and speak for himself.

In a recent speech to the Harvard Students Congressman McCall said:

"We have been passing through a wild orgy of extravagance, in which very much has been consumed in fireworks and fustian, and great burdens of expense have been fastened upon the people. Now, as a result of it all, we are to have taxation of a sort such as the country usually has known only as a result of war, and the people will have an opportunity of paying the bills.

We have about danced ourselves out of breath, Let us retire to some secluded spot to rest and meditate."

THE MAKING OF BOOKS.

Members of congress get leave to print speeches that are not delivered. Imitating their example, heads of government bureaus take leave to print their interminable effusions until there is no more room for the accumulation of their stuff in the basement of the capitol.

According to an official report, these accumulations amounted to 279,598,835 pages. As nobody reads them, and as public as well as private libraries refuse to be encumbered by them, the surplus on hand would SEDALIA DEMOCRAT COMPANY amount to 559,197 velumes of 500 pages each. Herman Davis May Lose Sight of Both Eyes as a Result.

Fletcher, Okla., March 23 .- What was meant in fun turned out a very serious joke in the Davis family here

Herman Davis slept late one morf ing, after repeated calls from othes members of the family to get up.

His sister, thinking it would be fun to pour a little cold water on his head to awaken him, picked up what she believed was an empty tin can and filling it with water went to his room and dropped some of the water

Davis opened his eyes suddenly and a considerable quantity went into his eyes. The can had contained concentrated lye and a good portion of it remained in the vessel. The sight of one eye was destroyed almost immediately and it is believed he will lose the

Trim Your Nails.

There is a certain eminer physician who, wiser than the children of light, plods his way along in an unbeaten track and has no peer as a diagnostician. He is always accompanied by an expert manicurist, instead of a white or colored valet. "The human nail, like the human hair," he said to me, "is much affected by physical conditions. Barbers will tell you that in certain seasons the beard, for instance, grows nearly twice as fast as at others. It is so with the nails. Sometimes the nail has transverse furrows, indicating periods of illness. At other times it bears furrows running lengthwise-a sure indication of gout. My manicurist can tell by these indications when your last sickness occurred, and I can tell what the mal-

GOVERNOR CURRY RESIGNS

Requested Leave of Absence to Go to Washington.

Santa Fe. N. M., March 23.-Governor George Curry yesterday telegraphed to President Taft his resignation as governor of New Mexico.

Governor Curry stated that although he had contemplated taking this action for several months past, the immediate cause of his action was that he had requested a leave of absence to go to Washington to talk with President Taft and the secretary of the interior on matters of great importance to New Mexico, not appertaining to statehood, but that Secre tary of the Interior Ballinger had answered that he should take up the business by letter.

Last Saturday Governor Curry as saulted A. J. Loomis, editor of the Eagle, a democratic weekly paper, in his private office at the capitol build.

Mr. Loomis last week printed an article on statehood and the statehood lobby, which Governor Curry considered a reflection upon him. The governor immediately telephoned Mc. Loomis to call upon him, and when the latter put in an appearance Governor Curry, according to report, punched him and then threw him from the office.

Loomis and his friends at once started a movement to have Governor Curry removed from office, and were preparing charges against the governor to be filed with Uresident Taf: and Secretary of the Interior Ballin-

SALOON THOUGHT NO. 103.

Please understand us. We do not try, by any means, to insinuate in any way against the honor or integrity of the saloon men or any of their families in these articles. The men in the saloon business in Sedalia are in just as legitimate business as any man in Sedalia. They love their families as much as any one, too, and while we are sincere in our belief that they are doing more to hold Sedalia down as a city than any other possible condition, we do not want to cause any one to think that we are trying to bemean them in any way. The saloon men are not to blame for the condition they have placed Sedalia in; it is we dupes that allow such conditions to exist. They are business because men in the same block pray to the county court to put them there. If we are fools enough to kill our own town by allowing them to get our money and give us a lot of criminals and jailbirds, and criminal cost, they are not THE DRYS.

Our Fleet is Home!

And all the nation's navy-mad.

And nearly all the nation's reading Admiral Robley D. Evans' remarkable series of articles about the Fleet-the critics—the big guns—the men behind the guns - the best target practice on earth-the dangers inside and outside our ships-how our fleet and our men compare with those of other nations?

This month the Admiral writes about the "Dangers that Threaten Our Battleships in Action."

For the first time in the history of the navy a man who has held the highest possible naval position is telling us everything we want to know about this important and interesting subject. President Roosevelt has referred to Fighting Bob's writings as "lessons in practical patriotism."

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe,

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the

sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. C C NATURES CURE

The conditions and causes which produce Rheumatism all suggest a her life, body, heart and soul to the healthful vegetable remedy as the surest and safest cure. The disease is duty of wifehood and motherhood, and brought about by the accumulation of uric acid, an irritating, pain-producing to the profound, steadfast religious property in the blood. This causes a weakening and souring of the circulation which then becomes unfit for nourishing the body, while the deposits of uric acid in the nerves, muscles, joints and bones produce the pain and agony of Rheumatism. To treat the trouble with medicines containing potash or other strong minerals, is simply adding another poison to the already weak, diseased blood, sapping it of its remaining vitality, and perhaps in the end making a physical wreck of the sufferer. No man is stronger than his stomach. Make your stomach strong and you thereby fortify your system against the attacks of a long list of diseases which originate in the stomach and must be reached, if at all through the stomach. Thus torpid, or lazy liver, biliousness, dyspepsia, impure blood and various skin affections originate in weak stomach and consequent poor nutrition. The same is true of certain bronchial. throat and lung affections.

Dr. Pierce's Golden Medical Discovery

Strengthens the stomach, invigorates the liver, purifies the blood making it rich, red and vitalizing and thereby curing the above and kindred affections.

It's foolish and often dangerous to experiment with new or but slightly tested medicines—sometimes urged upon the afflicted as "just as good" or better than "Golden Medical Discovery." The dishonest dealer sometimes insist that he knows what the proffered substitute is made of, but you

The inauguration of a new governor has brought to mind the capital and its surroundings. No more beautiful site for a capital city could have been chosen than ours, named in honor of the man whose greatness unfolds with the development of the west and northwest. My earliest recollections are of playing in the grounds about the old capitol where my father had his office of attorney general of the state.
